

work
report™

Record operating hours
Optimise maintenance

your appliance guard

Targeted maintenance planning and recording of work times
– convenient and efficient via remote control

**Work
Report**

Optionally also with GPS:
Determine location of mobile devices

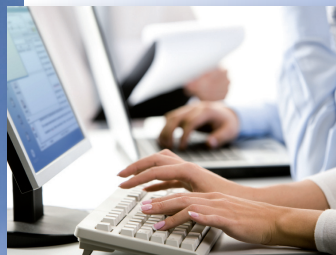

1. For machinery and equipment used decentrally
2. For mobile rental equipment

- Evaluations at the push of a button
- Convenient from anywhere in the world
- Per E-Mail, Handy or Software
- GPS module for location analysis of mobile devices (localisation e.g. after theft)

Record – Inform – Warn

- Recording of two types of operating hours: **hours switched-on** and **effective operating hours**
- Optimum maintenance planning without unnecessary inspections
- Complete billing of rental equipment
- Warning message in case of exceeding operating hours limits

Easy to use and evaluate

- Fast, space-saving installation
- Easy to use and evaluate
- Economical procurement prices
- Rapid amortisation of costs
- Individual adaptation to customers' requests

Record the data
that you really need!
